SKILLS

AI & LLMs

- LLMs (GPT-4, Claude)
- RAG
- Graph RAG
- Multi-agent systems
- LangChain
- LlamaIndex
- Vector DBs
- Hugging Face
- YOLO
- OCR
- PyTorch

Backend

- Python
- FastAPI
- Django
- Flask
- Laravel
- PHP
- REST APIs
- PostgreSQL
- MySQL

Frontend

- React
- Next.js
- TypeScript
- Tailwind CSS

Deploy & DevOps

- Docker
- CI/CD
- AWS
- Hetzner
- DigitalOcean
- Vercel
- Heroku
- Hostinger
- GitHub
- GitLab
- Bitbucket

Testing & automation

- Playwright
- Cypress
- Selenium
- n8n
- Make
- Zapier

"I build it, and I deploy it."

RESUME · 2026

Aman Yadav

Aman Xavier

Python & AI Engineer · Open to remote roles

Python and AI engineer who builds multi-agent systems, RAG and GraphRAG platforms, and computer vision features, and deploys them to production. Building for the web since 2015, from design and Laravel through React and test automation to AI. Led a 6+ person AI/ML team at Devexhub, and now builds and ships independent products, including two live marketplaces across Tricity. Looking for a remote AI or Python engineering role.

6+	60%	10K+	3
engineers led on the AI/ML team	faster deployments with CI/CD	daily API requests served	products live, built end to end

01 Experience

Devexhub · Mohali

Jan 2024 – 2026

Python AI/ML Developer & Team Lead

- Led a **6+ member AI/ML team** across the full lifecycle, from architecture to multi-platform deployment.
- Architected **multi-agent AI systems** combining RAG, GraphRAG and computer vision for client SaaS products.
- Owned deployment for every project** on AWS and Hetzner, with automated CI/CD that cut deployment time by **60%**.
- Built REST APIs serving **10K+ requests a day**, with Stripe and Razorpay payment integrations.
- Recognised as **Improved Performer of the Year** (Oct 2025).

EARLIER AT DEVEXHUB: LARAVEL AND TEST AUTOMATION

- Built multilingual learning platforms in **50+ languages** (50languages, Goethe Verlag) with Laravel, PHP and MySQL.
- Engineered a React + Laravel quiz platform with real-time data for **5K+ concurrent users**; optimised large databases for **50% faster queries**.
- Integrated Google Login, Maps, SMS and email services; built role-based access for enterprise apps.
- Ran automation testing in **Cypress and Playwright**, integrated with Slack and TestRail.

XavierStack · Chandigarh

2026 – Present

Independent AI Engineer

- Design, build and deploy my own products end to end, plus websites and AI automation for local clients.
- Built and deployed **LocalUncle** (100+ providers, first 50 with zero ad spend) and **BookMeDrive** (live across 3 cities).
- Building **PuchoYaar**, a multilingual AI study platform, and **mydockspace**, a chat-first workspace.

EDUCATION

Master of Computer Applications

Chandigarh University · 2021 – 2023

PG Diploma in Computer Applications

DAV College, Chandigarh · 2020 – 2021

B.Sc. Computer Science

DAV College, Chandigarh · 2017 – 2020

CERTIFICATIONS

Full Stack Python

Solitaire Infosys · 6-month industrial training

Junior Software Developer

NSDC · 6 months

JavaScript Internship

LEAPWATER · 1 month

AWARDS

Improved Performer of the Year

Devexhub · Oct 2025

Silver Medal

International Olympiad of Science

OUTSIDE CODE

Captured by Aman

Cinematic reels: cafés, travel, spaces

A template a week

Web design concepts on Dribbble

Open to remote AI & Python roles.

02 AI projects

MULTI-AGENT COMPLIANCE SAAS · DEVEXHUB

CopaCloud

A system of six specialised AI agents that audits documents against HIPAA and other regulatory frameworks. Includes a market-research agent for real-time company risk assessment, a questionnaire agent that writes logic-driven answers straight into Excel and Word, and a Chrome extension that brings GPT-4 analysis into users' workflows.

Multi-agent · GPT-4 · Python · Chrome extension

GRAPHRAG · DEVEXHUB

GraphRAG document chatbot

Admins upload government documents; each is checked for an official stamp and signature, licensed ones are approved automatically and stored in a knowledge graph, and the chatbot answers only from approved content.

Graph RAG · LLMs · Document verification

AI COMMERCE + CV · DEVEXHUB

PurchasePal

Playwright pipeline unifying product data from 100+ global retailers, YOLO body measurement from user scans for size suggestions, and a RAG + GPT-4 shopping concierge.

RAG · YOLO · Playwright · GPT-4

MULTILINGUAL RAG · DEVEXHUB

Bilingual RAG chatbot

Answers questions about inner engineering and wellbeing teachings in English and Greek, grounded in the source material so answers stay faithful to it.

RAG · LLMs · English + Greek

GENERATIVE AI · DEVEXHUB

AI image generator

Users upload a selfie and choose hair, eyes, face shape, height, body type, physique and colours to generate a new image of themselves.

Image generation · Python

03 My products

HOME SERVICES MARKETPLACE

LocalUncle

100+ verified providers across Chandigarh, Mohali and Panchkula; the first 50 joined in three months with zero ad spend. I built all the tech.

SELF-DRIVE RENTAL MARKETPLACE

BookMeDrive

Live across Tricity. Rebuilt around India's rental laws when the first model wasn't legal to run. Django + Next.js, WhatsApp-first enquiries.

AI STUDY PLATFORM

PuchoYaar BUILDING

AI study buddy for Indian students in Punjabi, Hindi and English, starting with PSEB, HBSE and CBSE. Django + Next.js with a RAG and Graph RAG pipeline.

PRODUCTIVITY SAAS

mydockspace BUILDING

A workspace and productivity tool being rebuilt chat-first, so you talk to it instead of clicking through it.

04 Before AI

50languages & Goethe Verlag

Language-learning platforms in 50+ languages, built in Laravel.

Test automation

End-to-end suites in Cypress and Playwright with CI/CD, Slack and TestRail.

Workflow automation

n8n, Make and Zapier integrations with ChatGPT and Google Workspace.
